PROFILE

BCA graduate and Flutter Developer with hands-on experience building cross-platform applications using Flutter and Dart. Experienced in BLoC, GetX, Firebase, Supabase, REST APIs, Clean Architecture, and responsive UI development. Built end-to-end applications with authentication, backend integration, state management. Seeking an entry-level Flutter Developer or Flutter Developer Intern opportunity.

TECHNICAL SKILLS

LANGUAGES Dart, JavaScript, HTML, CSS
FRAMEWORK Flutter
STATE MANAGEMENT BLoC, GetX, Provider
ARCHITECTURE Clean Architecture, MVVM

BACKEND Firebase, Supabase, REST APIs
STORAGE Hive
UI / DESIGN Material 3, Responsive Design
TOOLS Git, GitHub, VS Code, Android Studio

PROJECTS

E-Commerce App (User + Admin Panel) — Flutter, GetX, Firebase

[Github ↗](#)

- Developed a full-featured e-commerce application with separate user and admin workflows.
- Implemented authentication, product browsing, search, category and brand filtering, cart, and wishlist.
- Developed admin panel for product, brand, and order management
- Integrated sales analytics and user management
- Used GetX for state management and Firebase for backend

Ulearning Application — Flutter, Bloc, Supabase

[Github ↗](#)

- Developed a learning platform with onboarding, authentication, course discovery, search, categories, and profile workflows.
- Applied Clean Architecture with presentation, domain, and data layers for modular and maintainable code.
- Implemented BLoC for authentication, navigation, and course state management.
- Integrated Supabase for authentication and backend data operations, with Hive for local onboarding persistence.

TECHNICAL EXPERIENCE

Flutter Developer Independent Development

JAN 24-PRESENT

- Built and maintained 5+ Flutter applications covering authentication, REST API integration, backend services, and local persistence.
- Applied Clean Architecture, BLoC, GetX, and Provider to structure scalable and maintainable applications.
- Developed responsive mobile interfaces using Flutter and Material Design principles.

MERN Stack Project | 2023

- Designed RESTful APIs using Node.js and Express with MongoDB for data persistence.
- Built responsive interfaces using HTML, CSS, and EJS for a recipe exploration web application.

EDUCATION:

Bachelor of Computer Applications (BCA) Morazha Co-operative
Arts and Science College, Kannur University, Kerala

2020-2023

Brocamp – Software Development Training Brocamp, Bangalore (Online)
